

SUMMER 2020 - ZABBAR PRIMARY B

ANOTHER CHALLENGE FOR YOU!

Will you take this year's Summer Challenge?

How many of these tasks can you complete over the summer months? Students who manage to complete the set number of tasks will receive a certificate for their achievement when school hopefully starts again in September.

But, we will not just take your word for it! We want proof for each and every task that you complete! You need to start a scrap or a blog (recommended for older children) to document what you will be doing.

Children starting **Year 3/4** in September – 10 tasks

Children starting **Year 5** in September – 15 tasks

Children starting **Year 6** in September – 20 tasks

Check the school website for more information and useful links that will help you in your tasks.

Good luck and have loads of fun!

www.zabbarb.skola.edu.mt
